Oral Presentation Guidelines

✓ Presenters should prepare talks that are **10 minutes in length**. Each presenter will have 15 minutes of time provided to them.

✓ **Presenters, please be prepared for questions. You will have 5 minutes to answer questions posed by the audience members.**

How to give a dynamic scientific presentation:

- SCRCS has produced and searched out training videos about presenting your research orally and in poster form. Find these recordings on the website [advance.louisiana.edu](http://advance.louisiana.edu).
