

# ASRE PATHWAY OF DISTINCTION IN PSYCHOLOGY

This is a general idea of the steps to complete an ASRE Pathway. The goal of this program is for students to begin during their freshman year and complete requirements throughout their college career. There is flexibility in the timeframe, but all requirements must be complete prior to graduation.

**Please review the next pages for superscript notes with further information.**

1

## INITIATION

Begin by completing:

- UNIV 100 "First Year Seminar"

## BUILDING SKILLS

Build skills through:

- PSYC 200 "Psychological Science"
- Three (3) research related trainings or workshops<sup>1</sup>

2

## MASTERING SKILLS

Master skills through:

- PSYC 315 "Psychological Statistics"
- PSYC 415 "Applied Psychological Statistics" OR PSYC 442 "Psychological Measurement"

3

## PROFESSIONAL DEVELOPMENT

Develop professionally through:

- Mentored research<sup>2</sup>

4

## DISSEMINATION

Disseminate through:

- PSYC 400 "Professional Issues in Psychology"
- Presentation at a departmental, university, regional, national, or international conference<sup>3</sup>

## Psychology ADVANCE SRE Pathways

### Superscript Notes:

\* ASRE-approved courses only. Students who have earned credits for a course that is not ASRE approved may petition to substitute that course with a course PSYC 300 or 400 level course identified by the department. The SCRCs Advance office will review the petition for approval. Approved substitutions are only for the purpose of completing an Advance Pathway and are not approved as substitution for the degree.

<sup>1</sup> Approved workshops can include, but are not limited to SCRCs, library, or university workshops. SCRCs Advance Workshops can be found on the UL Lafayette SCRCs website. 1 in person SCRCs workshop is equivalent to 2 virtual SCRCs workshops, thus, 2 virtual workshops would be needed to count for 1 workshop/training experience. Other workshops focused on research skills are possible by approval from the Psychology Department. Other trainings that could count include CITI training or others as specified by the Psychology Department.

<sup>2</sup> Active involvement in a research lab or independent research project supervised by a Psychology faculty member, for at least one semester. Mentored research includes, but is not limited to, volunteer, scholarship, or paid from grants. Mentored research may also be internal to UL Lafayette or external to UL Lafayette. The Psychology Department will evaluate the mentored research based on the research submitted by the student and input from their mentor.

<sup>3</sup> Must be oral or poster presentation.

<sup>4</sup> Must be oral or poster presentation. Only regional, national, or international conferences will receive credit. Must also be a different conference than Presentation requirement.

<sup>5</sup> Student must co-author with a faculty member.
